i. The plants are ours

We plan around plants we grow and stock at our nursery, so what's in the plan is what arrives on site.

ii. One team, start to finish

Design, supply, delivery and planting by the same people. No middleman between you and the plants.

iii. Come and see them first

Our nursery is open every day. Walk the aisles and choose the plants for your project in person.

iv. Delivered by our lorries

Trees, plants, stone and grass go from our yard to your site on our own 1-ton and 3-ton lorries.

v. Supply only, if you prefer

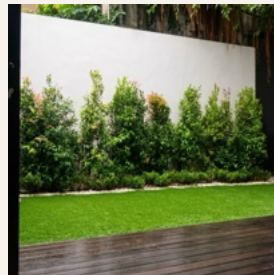

Using your own contractor? We supply and deliver the plants, grass, pebbles and soil.
